History of the Common Council of the City of Indianapolis

Indianapolis was established as a town in 1821. It was at this time that a commission, appointed by the legislature, selected this location as a site for a seat of government of the State of Indiana.

The town of Indianapolis conducted its affairs pursuant to the general laws of the state until 1832. In this year the town was incorporated and was governed by a board of five trustees.

In 1838, pursuant to a special act of the legislature, Indianapolis was re-incorporated and placed in the hands of its first town council composed of a president and six members.

The common council continued in a large measure to control the affairs of Indianapolis as a town and as a city under various so-called charters or grants of the legislature until 1891.

Under a special act of the legislature of 1891 for the city of Indianapolis, a somewhat different form of government was established. While the council continued to exercise broad control over the city's affairs, various executive departments of the city were provided, such as Public Works, Public Safety, Public Parks and Public Health, conducted by boards appointed by the Mayor. These boards were granted specific powers and duties concerning the city's business previously exercised by the council through committees subject, however, in some cases to approval of the council in all matters of expenditure of money and appropriation of funds by the council.

For some time prior to 1891 the City of Indianapolis was divided into 25 wards represented by 25 ward councilmen. Their term of office was two years and they were eligible for re-election. At this time there was also a separate body operating in conjunction with the council called the Board of Aldermen, composed of ten Aldermen, representing five Aldermanic districts, two being elected from each district.

Under the 1891 act the Board of Aldermen was abolished and a common council of 21 members was established. Fifteen members

were elected to represent 15 wards and six members were elected to represent the city at large.

This form of council continued to exist in Indianapolis under the general cities and towns act of 1905. The act of 1905, while often referred to as the Indianapolis Charter, is very largely a re-enactment of the 1891 Indianapolis charter, modified to make the Indianapolis system applicable to all classes of cities of the state. The 1905 law increased the term of Mayor and councilman to four years and prohibited re-election.

In 1909 a novel councilmanic law for Indianapolis alone was passed by the legislature. This law limits the number of councilmen to nine. The law provides for the nomination by each party of six candidates, one from each of six councilmanic districts. In the election all of the voters of the city may vote for any nine candidates and the nine receiving the highest number of votes are elected. This law insures a minority representation in the Council of at least three members. In 1949 the legislature amended the statutes to permit councilmen to succeed themselves.

December 29, 1959

TO THE HONORABLE PRESIDENT AND MEMBERS OF THE COMMON COUNCIL OF THE CITY OF INDIANAPOLIS:

Gentlemen:

General Ordinance No. 99, 1959 pertaining to the licensing and regulation of taxicabs is being returned unsigned because since the passage of the Ordinance new information has been given to the Mayor's Office revealing that the present rates are in line with rates being charged in cities comparable in size.

Taxicab Company officials have been informed that if they have additional facts to support their case for a rate increase they can have a public hearing before the Board of Public Safety to which members of the City Council will be invited.

The information gathered for the Mayor's Office was secured by Mr. Carter Harrison, Mr. Russell Swisher and Mr. Ellsworth Max-

well. Their findings do not support a request for a taxicab rate increase.

In the future when similar requests are made we will follow the policy of having public hearings so that all the facts will be available to the Safety Board and the City Council before the Council is asked to vote upon any increase.

Very truly yours,

CHARLES H. BOSWELL
Mayor

The area involved in this annexation is a logical area for the expansion, improvement and orderly development of the City of Indianapolis and the balancing of its Southeastern boundaries.

(2) The area closely contiguous and adjacent to the City of Indianapolis is urban in character and is an economic and social part of the City of Indianapolis and its development will foster and encourage the growth and prosperity of the City in a Southeasterly direction.

(3) This Common Council has determined that the terms and conditions of the annexation are fair and just to both the City and the area to be annexed, for as hereinafter provided, municipal taxes shall be funded for the benefit of the annexed area and used for such area only, for the first three years it becomes a part of said City.

(4) The City of Indianapolis is financially able to provide municipal services now to the area to be annexed and will be additionally able upon payment of the first installment of municipal taxes levied and collected from said area.

(5) The Council finds that while not all of the area herein involved is presently fully developed, it is now within an area containing some of the main thoroughfares in the Southeastern part of the City of Indianapolis, namely: Prospect Street, Minnesota Street, Raymond Street, Southern Avenue and Troy Avenue, said streets being major East and West arteries of traffic. Likewise it lies within the area of major North and South thoroughfares of the City of Indianapolis, namely: Emerson, Ritter and Arlington Avenues. Further, the Council finds the area to be so located that the extension of city traffic arteries therein, and the location of State, Federal and Interstate Highways in the area soon to occur will make the location urban in nature within a decade, so that it is now needed for present development to meet such immediate future use.

(6) The Council finds that the lines of annexation are so drawn as to form a compact area abutting the City of Indianapolis; that it works out a geometrically symmetrical Southeastern boundary for the City of Indianapolis.

Section 3. To bring about the development and improvement of such annexed area there will be impounded in a special fund all the Indianapolis property tax of the City of Indianapolis which shall be imposed upon the annexed territory for three years after the effective date of this annexation. Said funds shall constitute a special fund created under this ordinance and such impounded tax in said fund shall be used solely for the benefit of the annexed territory, and for the extension of municipal services. Said fund shall also be used to pay the City's portion of general benefits assessed in the making of local public improvements in the annexed territory. Said Common Council will also recommend to the Board of School Commissioners of the City of Indianapolis that the taxes for the School City of Indianapolis, collected in such area, be likewise so impounded and used for school purposes in said area.

Said Common Council (as soon as possible) after the effective date of the annexation of such territory will hold a public hearing with reference to the needs of the area at which hearing it will notify the various Boards and department heads of the City to hear the needs of the area and to adopt a planned program for the improvement thereof.

Section 4. This Ordinance shall be in full force and effect from and after its passage, approval by the Mayor, and publication according to law.

Which was read for the first time and referred to the Committee on Finance.

Upon final adoption of this ordinance the City Clerk shall cause to be published and posted in the manner required by law, a notice of the filing of a petition to issue bonds of the City of Indianapolis and a notice to taxpayers of the determination of said City to issue said bonds as authorized by this ordinance. Said notice shall be published once each week for two (2) consecutive weeks in two (2) newspapers published in the City of Indianapolis, Indiana, and representing the two (2) leading political parties, and said notice shall also be posted in three (3) public places in said City all as provided by law.

Said bonds shall not be advertised for sale prior to the expiration

of the period during which taxpayers may file remonstrances or objecting petitions to the issuance of said bonds. In the event a remonstrance shall be filed by the owners of taxable real estate under the provisions of Section 64-313 Burns Indiana Statutes 1933, then no further steps toward the issuance of said bonds shall be taken unless and until the Common Council shall have determined that such remonstrance is insufficient. In the event an objecting petition or petitions are filed by taxpayers under the provisions of Section 64-1332 Burns Indiana Statutes 1933, then no further steps toward the issuance of said bonds shall be taken unless and until the State Board of Tax Commissioners shall issue its order approving the issuance of said bonds. In the event that it shall be determined by the State Board of Tax Commissioners, or otherwise, that the whole amount of the bonds herein authorized shall not be issued, then the City Controller shall be authorized to advertise and sell a lesser amount of bonds, and the bonds not issued and sold shall be the bonds of the longest maturity or maturities.

Section 5. Prior to the sale of said bonds the City Controller shall cause to be published a notice of sale of said bonds once each week for two (2) consecutive weeks in two (2) local newspapers. The date fixed for the sale of said bonds shall be not earlier than ten (10) days after the last of said publications. Said bond sale notice shall state the time and place of sale, its purpose for which the bonds are issued, the total amount to be sold, the maximum rate of interest thereon, the time and place of payment, and the terms and conditions upon which bids will be received and the sale made, and such other information as the City Controller shall deem necessary.

Among other things the aforementioned notice shall advise the bidders that all bids for said bonds shall be filed with the City Controller in his office in said City in sealed envelopes marked "Bids for City of Indianapolis Weir Cook Municipal Airport Improvement Bonds of 1960", and each bid shall be accompained by a certified or cashier's check or bank draft payable to the City of Indianapolis in an amount equal to One (1%) per cent of the amount of said bonds, to guarantee the good faith of the bidder, and that in the event the bidder to whom the bonds were awarded, shall fail to comply with the provisions of the bid, then said check and proceeds thereof shall become the property of the City of Indianapolis, and shall be taken and considered as the liquidated damages of the City, on account of such failure or refusal. The aforementioned notice shall provide also that bidders for said bonds shall be required to name the rate of interest

which said bonds are to bear, not exceeding Four and one half (4½%) per cent per annum, and that such interest must be in multiples of one eighth (⅛) of One per cent (1%), and not more than three interest rates shall be named by each bidder; that the City Controller shall award said bonds to the highest responsible and qualified bidder who has submitted his bid in accordance with the notice of said sale, and that the highest bidder will be the one who offers the lowest net interest to the City, determined by computing the total interest on all of the bonds, to maturity and deducting therefrom the premium bid, if any.

Section 6. No bid for less than the par value of said bonds including the accrued interest from date of said bond to date of delivery thereof, at the rate named in the bid, shall be considered. The City Controller shall have the full right to reject any and all bids. In the event the City Controller shall receive no satisfactory bids for said bonds at the time fixed in said notice of sale, he shall be authorized to continue to receive bids thereafter from day to day for a period not to exceed thirty (30) days, without re-advertising therefor, and in the event of such a continuation of the sale, the City Controller shall open all bids filed, at the same hour each day as stated in the bond sale notice. No bid which may be received during said thirty (30) day period shall be accepted if less than the highest bid received at the time of the advertised sale.

Section 7. The City Controller is hereby authorized and directed to have said bonds and coupons prepared, and the Mayor and City Controller and City Clerk are hereby authorized and directed to execute said bonds and the interest coupons to be attached thereto in the form and in the manner herein provided, and the City Controller shall, after the execution of said bonds, deliver the same to the City Treasurer and shall take his receipt therefor. THIS MEMORANDUM OF AGREEMENT, made and entered into, in duplicate, this 7th day of April, 1960, by and between the Indianapolis Power & Light Company, a corporation organized and existing under the laws of the State of Indiana, hereinafter called the COMPANY, and the CITY OF INDIANAPOLIS, County of Marion, State of Indiana, hereinafter called the CITY, by and through its Board of Park Commissioners, hereinafter called the BOARD, under and by virtue of an Act of the General Assembly of the State of Indiana, entitled "An Act Concerning Municipal Corporations," approved March 6, 1905, and all acts supplemental or amendatory thereto,

WITNESSETH:

1. AGREEMENT:

That the Company, in consideration of the payments of the several sums of money, as hereinafter set forth, hereby covenants and agrees to furnish and supply said City of Indianapolis, in its corporate capacity, through its Board of Park Commissioners, with electric service of the kind and character and with electric lights of the number, kind and standard hereinafter specified, and with such additional electric lights of the number, kind and standard which may be hereafter ordered installed by the Board, and to furnish and supply current for light and power for all public buildings, public equipment and other public places, all under the jurisdiction and control of the Board of Park Commissioners, including maintenance, as specified herein, upon the conditions and stipulations and subject to the limitations hereinafter set forth; and the City, on its part, expressly covenants and agrees that it will not use light or power for the above purposes from any other source during the term of this contract.

2. COMPANY TO FURNISH EQUIPMENT:

That the Company shall furnish, for use in the performance of this contract, all the necessary materials, labor, plant, machinery and appliances, except such equipment as is now or hereafter may be owned by the City, and construct, operate and maintain the same in such parks, parkways, boulevards, subways and other public places in the park system of the City in such manner as the Board may from time to time direct during the life of this contract; provided, however,

that the number of lights to be operated and maintained by the Company shall not be at any time less than that shown and set forth in the specifications attached hereto, marked "Exhibit A" and, by reference, made a part of this contract the same as if incorporated herein.

3. TERM OF CONTRACT:

That the contract term of this agreement for lighting the parks, parkways, boulevards and other public places in the park system of the City, as herein provided, shall begin at 12:00 o'clock noon on the 1st day of July, 1960, and continue for and during the term of five (5) years, ending at 12:00 o'clock noon on the 1st day of July, 1965.

4. WORK IN PARKS, PARKWAYS AND BOULEVARDS—MOVING POLES:

The work of construction, reconstruction or repair of any part of the Company's plant and equipment located in any part of the parks, parkways, boulevards and other public places, including the cutting into and repair of parkways, boulevards and pavement, and the location or relocation of plant, lines, lamps, poles, conduits and all other equipment in the public parks, parkways, boulevards, public places and buildings, shall be done under the supervision and subject to the approval of the Board.

The Board reserves the right to order changes from time to time in the location of any part of the Park Lighting System or other equipment described in said specifications, whenever such equipment is obstructing public improvements proposed by the City. The Company agrees that it will move, upon written direction of the Board, a maximum of ten (10) light standards and five (5) overhead light poles (with equipment) each year during the term of this contract without making any charge for such changes.

In case the Company shall neglect or refuse to obey such orders of the Board with respect to moving light standards or poles without charge, the Board is hereby authorized to perform such work and charge the costs thereof to the Company and deduct the same from any moneys due or which may become due to the Company.

All other changes in location of portions of the Park Light-

Such expense shall be estimated in advance by the Company upon the basis set out in Section 6 of said specifications.

No standards, poles, guy stubs or other portion of the Park Lighting System now located in parks, parkways, boulevards or other public places or which may hereafter be located therein with the approval or at the direction of the Board, shall be relocated to suit the convenience of any private person, except upon written order of the Board. The expense of such change or relocation shall be estimated in advance by the Company, subject to the approval of the Board; and the Board, in the order directing the change, shall determine and fix the portion of such expense that the person requesting such change shall pay to the Company as a condition precedent to the same. The Company agrees that it will, as nearly as possible, restore, or cause to be restored, all parks, parkways, boulevards and other public places to the same condition after the completion of any of its work as they were before being disturbed; that it will at all times make, or cause to be made, any and all repairs to the pavement of any park, parkway, boulevard or other public place which may be necessary by reason of the same having been excavated or disturbed by the Company in the prosecution of its work; that it will not, except upon emergencies, make cuts into the drives, walks or lawn areas of any park, or cut into any parkway, boulevard or other public place without having first (a) prepared and filed maps, plans and specifications with the Board showing the work contemplated, (b) obtained the written consent, approval and permit of the Board thereto and (c) paid the permit fees required by ordinance. In the event the Company shall make cuts into the drives, walks or lawn area of any park, or cut into any parkway, boulevard or other public place for emergency repairs, the Company shall, within twenty-four (24) hours or by the next business day thereafter, secure a regular permit from the Board covering such work and pay the permit fees provided by law.

5. PROTECTION ON WORK:

That the Company shall not at any time open or encumber any more of any park, parkway, boulevard or other public place than shall be necessary to enable it to perform the work of laying its wires, conduits, cables and other appurtenances with proper economy and effi-

ciency. Any opening or encumbrance of any such park, parkway, boulevard or other public place shall not be permitted to remain for a longer period than may be necessary in the judgment of the Board; and the Company shall effectually guard all such openings and encumbrances with barricades and lights to protect against accidents or injury to any person by reason thereof.

6. CITY RESERVES RIGHTS IN STREETS:

That the City reserves to itself all rights and powers which are now and may hereafter be vested in its Common Council, Board of Park Commissioners or other Boards or officers concerning the regulation or the use of its parks, parkways, boulevards or other public places, to prevent obstructing, damaging or encumbering the same; to regulate and protect sewers; to control the digging into and excavating such parks, parkways, boulevards or other public places and to prohibit injury to the same; and reserves full right to exercise any and all its police powers at any time. Nothing contained herein shall be construed as to in any way abridge any of such powers.

7. COMPANY TO CONFORM TO ORDINANCES:

That the Company shall, in all operations connected with the work of construction or the lighting herein contemplated and specified, or in furnishing current or light hereunder, and in all other matters, conform to and obey all city ordinances or laws controlling or limiting in any way the actions of those engaged upon the work or affecting the materials used. The Company shall take all necessary precautions for the protection of life and property.

8. CONTRACT SUBJECT TO LAWS AND ORDINANCES:

That this contract, in all matters not herein specified, shall be subject to the provisions of the Acts of the General Assembly of the State of Indiana and the Ordinances of the Common Council of the City of Indianapolis, so far as they are applicable hereto.

9. LIABILITY:

The Company shall and hereby agrees to idemnify and save harmless the City, its officers and employees, from and against all loss, damage and expense resulting from or caused by the negligence of the Company

in the construction, repair and maintenance of its property and system, or any part thereof, used in connection with supplying electric energy in the performance of this contract, but the Company shall not be liable to the City or to third persons, by reason of any covenant or promise herein made, for damages resulting from injuries to or death of any person, or for damage to or destruction of any property, when the Company's only connection with such injury, death, damage or destruction, or with the event or events resulting in such injury, death, damage or destruction, is established by proof that such injury, death, damage or destruction, or the event or events resulting in injury, death, damage or destruction, was caused by, contributed to, or resulted from the failure for any reason or cause of any lamp or lamps in any part of the Park Lighting System to be illuminated.

12. BILLS PAYABLE:

The rates or sums due the Company for performing service according to the terms of this contract and at the prices set forth in "Exhibit B" shall be due and payable in monthly installments. The amount to be paid for service for any one month shall be due upon presentation of a bill therefor and shall be payable within thirty (30) days from date thereof. It is further agreed and stipulated that all forfeitures accruing and due the City for any reason, from time to time, under this contract, shall first be deducted from the rates or sums to be so paid by the City. Bills will be rendered monthly, by the Company to the Board, for services supplied under this contract. Prices quoted in "Exhibit B" are net and are subject to a three per cent (3%) collection charge when not paid to the Company within thirty (30) days after date of bill.

13. ARBITRATION:

In the event any disagreement or controversy shall arise or is in dispute under and respecting the interpretation of this contract, or any provisions contained herein, such disagreement or controversy shall be referred, upon written request of either party and notice thereof presented to the other party, to a Board of Arbitration consisting of three (3) competent disinterested persons appointed in the following manner:

The members named by the Board and the Company shall acknowledge their appointment, in writing, and copies of the acknowledgements shall be presented to each party within fifteen (15) days after date written request for arbitration was presented. In the event that the two members of the Board of Arbitration selected by the Company and the Board, as hereinabove provided, do not, within a period of ten (10) days after their appointment, jointly agree upon and name the third member of said Board of Arbitration, then and in that event such third member of the Board of Arbitration, upon written application of either party hereto, shall be appointed by the Chairman of the Public Service Commission of Indiana, who shall also fix the compensation to be paid to the member of said Board so appointed for any services performed, and the appointment so made and compensation so fixed shall be binding upon both parties. The Board of Arbitration so constituted shall have submitted to it all the facts and testimony with regard to such disagreement or controversy. The expense of such arbitration, including the services of such third Arbitrator, shall be borne by the party requesting it, except in those cases where the Arbitrators decide in favor of the party making the request, whereupon such expense shall be equally divided between the City and the Company, but each party shall pay for the services of its own appointee at all times. Any expense chargeable to the City for such arbitration shall be paid from any funds available therefor.

14. SUBJECT TO PUBLIC SERVICE COMMISSION OF INDIANA:

This contract, including the rates and service fixed herein and all amendments, modifications and additions thereto and all ordinances passed by the City of Indianapolis, concerning the subject matter of such rates, shall be subject in all respects, where so provided by law, to the rules, regulations and orders of the Public Service Commission of Indiana, or any other body established by law succeeding to the power now or hereafter exercised by said Commission.

SPECIFICATIONS

1. PARK LIGHTING SYSTEM:

The present installation of lighting equipment, as shown on Exhibits "1" and "2" attached hereto and, by reference, made a part of these specifications, is to constitute the lighting system upon which the contract is based, and the Board agrees that the same shall be the basis on which payment shall be made under the contract to the Company until additions or retirements have been made as hereinafter provided.

2. DISCONTINUANCE OF SERVICE:

The Board shall have the right to discontinue at any time the use of any lamp or lamps served under the contract after not less than thirty (30) days' advance written notice to the Company of its intention to discontinue any such lamp or lamps; provided, however, that the total number of lumens produced and lamps in service shall never in any contract year be fewer than ninety-eight percent (98%) of the number of lumens produced and lamps in service on the effective date of the contract, or on the 1st day of July of such contract year, whichever number is greater; and provided further, that in the event any

part of the lighting system is transferred to the jurisdiction and control of the Board of Public Works, the reduction of lumens produced and lamps in service caused by said transfer shall be deducted from the number of lumens produced and lamps in service on the effective date of the contract and on the 1st day of July of the then current contract year.

3. ADDITIONAL LIGHTS:

A. The Company shall promptly erect and place in operation such number of additional lights on wood poles and supplied from overhead circuits, known as overhead lights, to be and remain at all times the property of the Company, similar to those described in Exhibit B attached to and, by reference, made a part of the contract, as the Board may from time to time order and locate in writing; provided, however, that the Board shall not require additional lights or extensions during the last year of the contract term, unless the Company shall consent thereto.

In ordering additional overhead lights and extensions, due consideration shall be given to the method in which the lighting circuits are laid out and to the character, size and type of lights being used on these circuits and in the district involved.

B. The Company shall promptly erect and place in operation such number of additional lights on metal poles and supplied from underground circuits, known as standards, to be and remain at all times the property of the Company, similar to those described in Exhibit B attached to and, by reference, made a part of the contract, as the Board may from time to time order and locate in writing; provided, however, that no additional standards or underground extensions shall be required of the Company during the last three (3) years of the contract without the consent of the Company, which consent shall not be withheld by the Company without just cause.

4. LAMPS AND ACCESSORIES:

Lighting shall be principally by means of incandescent lamps or such other type of lamp as may be mutually selected and approved by the Board and Company. Such lamps shall be placed on, supported on or suspended from poles or standards with suitable brackets or mast arms, and the wires supplying electrical energy thereto shall be placed either overhead or underground.

The lamps to be furnished shall be of standard types, mutually selected and approved by the Board and Company, and, when operated at the amperage, voltage and wattage specified by the manufacturer, the total lumens of each lamp shall not be less than the amount specified and guaranteed by the manufacturer.

The lamps shall conform at all times to the highest standard of the best American lamps manufactured.

Globes, reflectors, housing and other accessories shall be of the best grade of the respective types as mutually selected and approved by the Board and the Company.

5. CONTROL OF LIGHTING:

All lamps installed under and pursuant to the terms and conditions of the contract shall be lighted on an average of approximately four thousand, one hundred (4,100) hours per year, i.e., during the hours of darkness, from approximately thirty (30) minutes after sunset to approximately thirty (30) minutes before sunrise, except during the months of November, December, January and February, when the lamps will be lighted from approximately fifteen (15) minutes after sunset to approximately fifteen (15) minutes before sunrise, it being understood, however, that the control of such lighting may, at the Company's option, be by manual operation or by any approved mechanical or electrical device selected by the Company.

6. CHANGES IN LOCATION OF LIGHTS AND SIZE OF LAMPS:

Upon written order of the Board, the Company will change the size of lamps in any standards or overhead pendants, subject to the minimum lumen guarantee contained in Section 2 hereof. The Company will also, upon written order of the Board, relocate any lights, including equipment pertaining thereto, located in the parks, parkways, boulevards, bridges or other public places; provided, however, that for all such changes of lamps and relocation of lights or other equipment, the Company shall be reimbursed by the City for the total cost of labor, material and other costs necessary to accomplish such changes and relocations, plus a percentage of the labor, material and other costs of engineering and overhead, except that there will be no charge for the number of relocations which the Company agrees to make without expense to the City in paragraph 4 of the contract. The

Board may require detailed statements of relocation costs, etc., with statements as to the correctness thereof, sworn to by an authorized representative of the Company.

7. MAINTENANCE AND OPERATION:

Prices quoted for operating standards and overhead lights cover only normal operating and maintenance requirements, which are defined as follows:

Company will furnish necessary electrical energy for operating such standards and overhead lights; will furnish lamp renewals whenever necessary; will paint each light standard at least once every five years from date of last painting; will furnish labor and material for emergency repairs necessary to maintain service; will clean globes and glassware at least twice each year; will replace or repair any defective material as soon as practicable, and will restore lights and equipment to normal operating conditions in case of trouble or accident.

The annual charge per light specified in Exhibit B, attached to and, by reference, made a part of the contract, includes all breakage of glassware, lamps or other lighting equipment used in supplying lights. The City upon its part agrees that it will enact and enforce all reasonable ordinances for the protection of the property of the Company against trespass thereon or destruction thereof.

To accomplish the requirements of maintenance and operation and carry out all provisions of the contract, the Company will furnish a skilled operating organization consisting of all necessary employees, including servicemen, electricians, switchboardmen, linemen, patrolmen, laborers and supervisors, to provide service in an adequate and reasonable manner.

8. OUTAGES:

The Company shall establish and maintain an efficient system of patrol for inspecting all lamps furnished and maintained under the contract. Any lamp which fails to burn properly shall be promptly put in order or replaced.

Any broken globes or reflectors shall be replaced as soon as practicable after the breakage is discovered.

The City's Police Department will report to the Company, as soon as practicable, all outages observed or known by the members of said Department. The Company shall maintain a record of all outages observed or known, stating the number and locations of any lights extinguished or not burning, and the time when each light was reported extinguished or not burning, and the time the light was relighted. Said record shall also state the cause, if known, of each said light being extinguished or failing to burn.

To adjust the cost of lighting service to the City for outages which occur each month during the term of the contract, the Company shall credit on its monthly statement to the City for such lighting service a sum equal to two and two-tenths cents (2.2c) per light for each light in service during said month.

When by reason of any order or requirement of the Federal Government, or other duly authorized authority, the use of electric current for street and park lighting is limited or prohibited, or street and park lighting is prohibited in toto, or for any given number of lamps, then no payment shall be made by the City of Indianapolis for such lamps as are not burning during the period of the order. If the order of the Government, or other authority, limits and restricts lighting during certain hours of the night, the payment under the contract shall be adjusted upon a basis to be agreed upon by the City and the Company, or determined by the Public Service Commission of Indiana.

9. JOINT USE OF POLES AND CONDUITS:

The Company, in order to avoid multiplicity of poles and conduits, so far as it is safe and practicable and not in conflict with any restriction of the City Council or any Act of the General Assembly of the State of Indiana or order of the Public Service Commission of Indiana, shall, upon written request of the Board, permit joint use of all or any of its poles and conduits, in any park, parkway, boulevard, bridge or other public place, by the City for street signs, fire alarms, telephone or telegraph signal circuits and traffic signal control circuits, or by other public utility companies, upon terms mutually agreeable to those affected.

No advertisements or material of any kind shall be permitted on standards, poles, globes and fixtures or any part of any standard or

pole owned by the Board or the Company, except such as may in the opinion of the Board be necessary for safety and traffic control.

The City shall have the right to place and remove street signs on any standard or pole at any time during the life of the contract. The placing and removal of said signs shall be done at the City's expense.

Attachments to the standards, poles and fixtures of the Company shall be made and maintained by the City, at its own expense, in accordance with standard specifications of the Company for doing such work, and such attachments shall be in such manner as will neither conflict with the use of said standards, poles and fixtures by the Company nor interfere with the working or use of its wires thereon and/or from time to time placed thereon. The City shall, at its own expense, upon not less than thirty (30) days' advance written notice from the Company, change, alter, improve, repair, renew or remove said attachments in such manner as the Company may direct.

The City shall idemnify and save harmless the Company against any and all damage or loss that may result to the equipment and/or property owned or used by the Company and from and against any and all legal and other expense, claims, costs, losses, suits or judgments for damages or injuries resulting to persons or property by reason of the use or maintenance of City's attachments to the standards, poles or fixtures of the Company, or by reason of acts of negligence of the agents or employees of the City, while engaged in the work of placing, maintaining or renewing attachments on or removing attachments from said standards, poles or fixtures.

In the event it is necessary to replace a pole or poles upon which the City has made attachments under the contract, because of street improvement, or because the pole is deteriorated, or because the load on said pole or poles has become greater than is safe for the pole to support, the City shall, at its own expense, transfer the attachments from the old to the new pole within ten (10) days after being requested, in writing, to do so by the Company.

Use of Company's conduits by the City, as hereinabove set out, shall conform to the standard specifications of the Company for such use, and in such manner as will not interfere with the use of said conduits by the Company.

Installation and maintenance of all fire alarms, telephone or tele-

graph signal circuits and traffic signal control circuits in Company's conduits shall be at City's expense.

In the event it is necessary or desirable, in the opinion of the Company, for the City to remove, replace, repair or relocate any equipment installed by the City in Company's conduits, said equipment shall be so removed, replaced, repaired or relocated by the City, at its own expense, within ten (10) days after being requested, in writing, to do so by the Company; provided, however, that if the City shall fail or refuse to comply with any such request, then such matter shall be referred to and decided by the Board of Arbitration provided for by the contract.

10. SCREENING OF LIGHTS:

Where the screening of lights is deemed necessary by the Board, the Board may, by written order, require the Company to provide and install screens, provided the Company is compensated in advance for the installed cost of such screens. The City agrees that it shall indemnify and save harmless the Company from any and all claims, demands, losses, suits or judgments for damages or injuries resulting to persons or property by reason of the installation or use of such screens as may be ordered by the Board.

11. SPACE AND EQUIPMENT ON CITY PROPERTY:

When the requirements of the City, or demands on the Company, require space in City buildings or on City property for the installation of transformation equipment, the City will furnish, exclusively for the Company's equipment, subject to special agreements approved by the Board, suitable space to meet the Company's requirements as to location, size and accessibility.

When the transformers and other facilities and equipment required to furnish and supply current for light and power for public buildings, public equipment and other public places are mounted on wood poles, the Company will install, own and maintain the necessary transformers, protective equipment and other facilities and equipment and make the connections to the City's service outlets.

When the transformers and other facilities and equipment are to be placed at ground level, the City shall install the necessary concrete pads and fencing and the Company will furnish, install, own and maintain

the transformers, protective equipment and other facilities and equipment and make the connections to the City's service outlets.

When an underground transformer vault installation is required, the City shall furnish and install the necessary walls and ventilating grating to provide a suitable transformer vault. The Company will furnish, install, own and maintain the necessary transformers, protective equipment and other facilities and equipment, and the City shall install, own and maintain all high voltage cables, conduit and transformer connections between the Company's high voltage lines and the secondary low voltage lines.

When an underground transformer vault installation is required to supply current for customers other than public buildings, public equipment or other public places, the Company shall provide all necessary partition walls and shall furnish, install and maintain all necessary vault equipment, including all primary and secondary lines and connections within the vault, all at Company's expense.

The Company shall supply one meter for each public building installation, except where more than one department occupies a building. In such event a meter must be connected to the wiring for each department, if the Board, in writing, so requires.

The Company shall supply electric service to the public buildings for heat, light and power for the twenty-four (24) hours of each and every day during the term of the contract.

12. IMPROVEMENTS IN SERVICE:

The Board shall have the right to require the Company to make use of any apparatus, appliances or devices, which are an advancement or improvement in connection with the art or service of street and park lighting over the existing facilities as now or newly installed according to the contract and in use during any part of the term of the contract in the City of Indianapolis, whether in the way of economy, increased illumination, safety, improved appearance or otherwise. The Company shall, at the Board's request or as the Company becomes informed thereof, furnish it with detailed information concerning any such apparatus, appliances or devices, including cost of installation, operation and maintenance, operating characteristics and any other data requested.

The Company shall be entitled to adjust the compensation from the Board so as to properly reflect, during the remaining term of the contract, any increase or decrease in the investment required and any change in operating expenses caused by the new installations or replacements.

The net increase or decrease in the investment and the change in the cost of operation and maintenance shall constitute the basis for the determination of the rates and charges thereafter to be paid by the Board to the Company for the improved or modified service; and the modifications or changes in the rates and charges, set forth in Exhibit B, including the addition of any new rate or charge, by reason of the improved or modified services, shall be incorporated therein by an amendment or modification of the contract approved by the Public Service Commission of Indiana, or any other body established by law succeeding to the powers now or hereafter exercised by said Commission.

In cases of new additional installations, comparisons will be made with existing facilities and equipment. In cases of replacements, the comparison will be made with the facilities and equipment replaced.

In the cases of replacements, the Board shall and hereby agrees to pay to the Company the original cost of the facilities and equipment replaced less depreciation, plus the cost of removing the facilities and equipment to Company's storeroom, minus any salvage value of the facilities and equipment so replaced. The amount to be paid by the Board to the Company shall be due upon presentation of a bill therefor and shall be payable within thirty (30) days from date thereof.

In case the Board and the Company are unable to agree as to any matters above set forth, such question or questions may be submitted to arbitration, as provided in Section 13 of the Contract.

13. ELECTROLYSIS:

Reasonable provision shall be made and maintained by the Company to protect the pipes, conduits and other property in the parks, parkways, boulevards or other public places, belonging to the City or to any other public utility or any abutting property owners or occupants, from electrolysis caused by current or currents of electricity of the Company.

14. STANDARD OF PERFORMANCE, TESTS AND PENALTIES:

The voltage and amperage supplied to each lamp shall be such as to maintain the lamps according to the standard requirements of the manufacturers.

Each lighting circuit shall be equipped with a testing loop, at such place and in such manner as the Board and the Company shall jointly determine, in order that the Board may at any time make tests as to fluctuations of the current supplied. The Board or its representative shall, at all times, have access to the testing loop and other places on the Company's property where the Board may desire to make inspections or tests.

In case of a dispute between the Board and the Company as to the accuracy of any meter or other instrument used in making tests or measurements of the Company's service, said instrument may be tested either in the City's laboratory, in the presence of a representative of the Company, or in the Company's laboratory, in the presence of a representative of the City, at the option of the Board, or the Board and the Company may agree to have such instruments tested by an outside laboratory of recognized standing.

The City shall indemnify and hold the Company harmless from all injuries and damages to persons or property by reason of said inspections or tests, except for such injuries or damages as may be caused by the negligence of the Company.

Whenever tests made by the Board show that the amperes upon any lamp circuits have been more than five per cent (5%) below the standard for those circuits for an unbroken period of one-half hour in any night, as evidenced by the readings of graphic recording ammeters or other devices, then and in that event the Company shall deduct from its bill a sum equal to five cents (5c) per night for each lamp on those circuits tested of 2,500 lumens and smaller and ten cents (10c) per night for each lamp on those circuits tested of larger than 2,500 lumens.

The following morning, the Board shall report to the Company the results of any tests showing deficiencies. The Company shall be permitted to examine and inspect the charts of the meters used in such tests.

The deductions to be made for low amperage or voltage, under the

provisions of this section, are not to be treated as a penalty but as liquidated damages for failure to perform the contract.

15. VOLTAGE AND CHARACTER OF SERVICE:

The Company shall specify the voltage and character of the electric service to be supplied, and it may, at any time thereafter, change the characteristics of the service if it deems such change necessary to safeguard a regular and uninterrupted supply of electricity or to better the conduct of its business. It is agreed, however, that the Company will give the City reasonable written notice of such contemplated change, and the City will adapt its apparatus accordingly.

16. TAXES AND ASSESSMENTS:

Any extra expense incurred by the Company in the performance of the contract, due to any future laws or ordinances, or due to any existing or future special tax or sales tax levied on the Company by the United States Government, State of Indiana, or any division or divisions thereof, for service supplied under the contract, shall be assumed by the City, providing such assumption is not contrary to law; and any reduction in expense which may affect the Company in the performance of the contract by reason of any of the conditions as stated above shall be credited to the City under the contract.

17. POLES AND POLE LINE HARDWARE:

The installation or replacement of all wood poles from which lamps are suspended shall conform to the standard specifications of the American Standards Association.

All installations or replacements of pole line hardware shall be of standard and approved materials.

18. PERFORMANCE BOND:

The Company, at the time of signing the contract, shall furnish a bond in the sum of Fifty Thousand Dollars ($50,000.00) with surety to the approval and satisfaction of the Board, conditioned that the Company shall perform the contract according to the terms thereof and according to these specifications. Said bond shall extend for the full term of the contract, but the Company shall furnish and deliver a new bond whenever the surety or sureties on the bond then existing shall be deemed by the Board to be insufficient and unsatisfactory.

OTHER COMMUNICATIONS

July 18, 1960

To the President and Members
of the Common Council of the
City of Indianapolis, Indiana.

Gentlemen:

Pursuant to the laws of the State of Indiana, the Purchasing Department, under the direction of Purchasing Agent Frank Schieb, advertised for bids for the printing of the Supplement to the Municipal Code for the years 1958 and 1959.

The bid submitted by the Indianapolis Commercial Printing Company was not the low monetary bid in this instance, but we do consider it as the lowest and best bid received and opened by the Purchasing Agent on Wednesday, July 6, 1960. We should like to state our reasons for requesting that the Indianapolis Commercial's bid be the one accepted by the City of Indianapolis.

Two years ago the Indianapolis Commercial Company's bid was $3400.00 less than the competitive bid received and they undertook

printing this Supplement at a savings of $3400.00 to the taxpayers and did a beautiful job. This year they are again bidding $5000.00, even though the 1959 Supplement is much larger than the 1957 Supplement, they still undertake this job at the same price. The competitor, who bid $8400.00 in 1957, this year has bid $470.00 less than Commercial. As the Supplement is much larger, I feel the low bid at this time is inconsistent as we all know printing and wages have risen in the past two years.

The location of the Indianapolis Commercial, a union printing plant, of course would account for convenience to this office, as in the past it has been necessary for us to discuss various points with the printer, and we find it extremely convenient to merely step out the back door of City Hall and be in the printing firm within a matter of minutes.

With the advantage of convenience and the quality of work, we feel we have accomplished a great deal in the past four years and have tried to maintain a high standard of work and effort that necessarily is demanded and must be forthcoming from this office.

Therefore, we respectfully request that the Common Council take affirmative action on the bid submitted by the Indianapolis Commercial Printing Company.

Respectfully submitted,

TERESA F. LAFFEY
City Clerk

Mrs. Spoerle asked for recess. The motion was seconded by Mr. Huber and the Council recessed at 7:50 P.M.

The Council reconvened at 8:45 P.M. with the same members present as before.

October 13, 1960

TO THE HONORABLE PRESIDENT AND MEMBERS OF THE COMMON COUNCIL OF THE CITY OF INDIANAPOLIS:

Gentlemen:

I have withheld my signature from SPECIAL ORDINANCE NO. 51, 1960 AS AMENDED, "AN ORDINANCE annexing certain contiguous territory to the City of Indianapolis, and fixing a time when the same shall take effect," and SPECIAL ORDINANCE NO. 52, 1960, "AN ORDINANCE annexing certain contiguous territory to the City of Indianapolis, and fixing a time when the same shall take effect," for the reason that these Ordinances provide for annexation of territory which is not at all in accordance with the over-all annexation program developed with City and Township officials.

Members of the Common Council participated in discussions of this over-all plan and realize the importance of carrying out a carefully planned program of annexation.

It appears to me that this annexation was merely an attempt to assist some party in acquiring a liquor license. Whether or not the foregoing is true these areas do not logically belong in the City of Indianapolis at this time.

Sincerely,

CHARLES H. BOSWELL
Mayor
